

SADMAN ZAMAN KHAN

UI/UX Designer | AI-Augmented Prototyping | Brand Systems
+880 1869 504 388 | sadmanz.khan@gmail.com | Dhaka, Bangladesh
[linkedin.com/in/sadmanzamankhan](https://www.linkedin.com/in/sadmanzamankhan) | sadmanportfolio.vercel.app

PROFESSIONAL SUMMARY

UI/UX and Brand Designer with hands-on experience in design systems, web dashboards, and AI-assisted prototyping. Skilled in Figma and Adobe Creative Suite, utilizing AI tools (Google Antigravity, Lovable) to rapidly turn wireframes into functional, testable browser prototypes to validate user flows with stakeholders prior to engineering. Currently the sole designer at SJ Innovation, leading client and internal design initiatives spanning interface design, brand identity systems, and performance marketing creative.

TECHNICAL & CORE COMPETENCIES

- **UI/UX Design:** Figma (Design Systems, Auto-layout, Component Libraries, Variables, Interactive Prototyping, Wireframing, User Flows), Responsive Web & Mobile Layouts, Dashboard & Command-Center Interface Design
- **AI-Assisted Workflows:** Google Antigravity (AI-directed web prototyping), Lovable, Claude Code CLI, ComfyUI (custom safetensors workflows), Ollama (local LLM research), Figma AI
- **Brand Identity & Visual Design:** Adobe Illustrator, Adobe Photoshop, Brand Guidelines, Vector Identity Systems, Sales Enablement Decks, Editorial Carousels, Print & Event Collateral
- **Growth & Web Discovery:** Meta Ads Manager (ad creative design & campaign setup), On-Page SEO (semantic heading hierarchies, metadata, JSON-LD structured data, Google Search Console), WordPress Administration

PROFESSIONAL EXPERIENCE

UI/UX Designer | SJ Innovation LLC

September 2025 – Present

Leading client and corporate design deliverables across the company since February 2026, reporting directly to executive leadership

Interface Design & High-Stakes Client Delivery

- **Alyssa Kristin (Luxury Bridal SaaS):** Designed a connected multi-platform ecosystem spanning a mobile Stylist App, Web Admin CMS, and CRM; praised by the client via internal feedback as 'clean, thorough and easily accessible.'
- **StoryGrooveAI:** Performed a 40+ point UX audit and end-to-end redesign of the landing page, pricing tiers, and onboarding flows to reduce friction; recognized by project leadership for taking full ownership under tight deadlines to secure client trust.
- **CollabAI Suite:** Led the interface redesign of a multi-agent AI platform, transforming a dense layout into a clean, intuitive dark command-center interface with scannable typography.
- **ICR Debt Surveillance:** Designed a 15-module Bloomberg-style credit surveillance dashboard in Figma, organizing complex financial data and debt matrices into clear visual alert tiers.
- **InfoFluence:** Designed McKinsey-style executive diagnostic reports and presentation decks for high-level AWS partner reviews.

Brand Systems & Sales Enablement

- **AI Control Tower Suite:** Created complete brand identity systems, logos, OpenGraph social assets, and 10+ comprehensive sales enablement decks for enterprise products (ePhysician, Marketing AI, Client Success AI, MortgageAI, RealtorHelp, Restaurant AI, NonProfit AI).
- **Queens AI Week:** Designed the official logo and brand asset package for the Queens Chamber of Commerce × SJ Innovation × Firstlight Cloud Xchange initiative.
- **22nd Corporate Anniversary:** Led the complete creative direction across 3 global offices (Dhaka, Sylhet, Goa), designing the anniversary identity, stage banners, recognition crests, merchandise packaging, and editing the post-event recap reel.

Client Scale & Rapid Production

- **LuCreativ / 3i Advertising:** Scaled account from an initial project to sustained, near-daily production across 7+ regional theme parks (Six Flags St. Louis, Valleyfair, Michigan's Adventure, Worlds of Fun, Schlitterbahn Galveston, Enchanted Parks).
- Praised by external agency leadership for reliable same-day turnarounds, managing high-volume promotional pipelines, and proactively catching layout flaws before publication.

AI Prototyping, Web Discovery & Growth

- **Web Architecture & Discoverability:** Structured and optimized 761+ pages across 3 major properties on the Lovable platform for on-page SEO and AI discoverability (JSON-LD schemas, semantic heading hierarchies, metadata, and Google Search Console indexing).
- **Agency Control Tower Redesign:** Led a full landing page redesign in collaboration with the team's copywriter — new architecture diagram, custom vector illustrations, scroll-driven interactive sections, and a proactive site-wide fix adding missing social links.
- **Rapid Prototyping:** Used Google Antigravity and Lovable to convert design concepts into functional, responsive browser prototypes to validate UX journeys before engineering.
- **Paid Social Growth:** Designed targeted Meta ad creative suites (ePhysician, NonProfit AI) and managed ad sets in Ads Manager, transforming a stalled campaign into an active ~3.5 qualified leads/day pipeline on same budget.
- **Local Generative Pipelines:** Configured local ComfyUI image workflows using custom safetensors checkpoints; utilized local open-source LLMs (Ollama) for competitive UX research.

Intern Graphic Designer | SJ Innovation LLC

May 2025 – September 2025

- Designed 200+ digital and print assets for US client campaigns, including high-converting Meta feed/story ads, technical LinkedIn editorial carousels, and corporate event signage.

Freelance Graphic & Brand Designer | Freelancer

March 2025 – April 2025

- Completed 4 client engagements for US businesses (edtech branding, store signage, gym promotional materials) during post-graduation period, delivering logos and brand assets with 100% on-time delivery.

SELECTED PROJECTS

ePhysician Landing Page Redesign — sadmanportfolio.vercel.app/work/ephysician-redesign

- Comprehensive redesign for a US healthcare AI front-desk platform. Overhauled the messaging, visual contrast, interactive ROI calculator layout, and trust architecture with HIPAA/PCI compliance verification.

Clandest Agency (Co-Founder & Lead Designer) — clandestagency.vercel.app

- Co-founded a 4-person creative studio. Designed the brand identity, typography, and web layout, directing AI tools to deploy the live site with clean on-page SEO and structured metadata.

Personal Portfolio Architecture — sadmanportfolio.vercel.app

- Designed an interactive 19-project portfolio with dark aesthetic, grain overlays, and case studies, using Google Antigravity to build and deploy static, crawlable pages on Vercel.

NEXURA — Brand Identity System (Capstone Project) | Score: 4.0

- Led end-to-end brand identity development in Illustrator & Photoshop: created custom logo system, a 40-page brand guideline book, and mockups across 20+ applications (stationery, packaging, signage).

Campus Rebranding & Digital Presence | Munshiganj Polytechnic Institute (2022 – 2025)

- Designed visual branding and event print materials for campus ceremonies; designed the logo and social guidelines for the Computer Club; built and managed a custom resource website.

AncestryForge & Design Token System

- Conceptualized and designed interface systems for a family-tree platform and a multi-variable design-token color and typography system.

PROFESSIONAL CONTRIBUTIONS & ACHIEVEMENTS

- **Client Impact & Ownership:** Took full ownership of the StoryGroove project during its critical launch phase, working late nights and weekends to deliver on tight deadlines. Client feedback praised the designs as "clean, thorough, and easily accessible," leading to repeat engagement and a strengthened relationship with SJ Innovation
- **Brand Consistency Ownership:** Have led SJ Innovation's visual brand consistency since probation — spanning the Control Tower product suite, internal culture materials, and company-wide presentations — including authoring the current brand guidelines from concept to implementation (POM social media creatives, Birthday carousels)
- **Operational Resilience:** Repeatedly stepped in during critical, short-notice periods (Restock Resource, weekend coverage during a teammate's family emergency) to maintain project continuity and client satisfaction under extreme deadline pressure — including ~15 hours of documented after-hours and weekend work logged over a single three-week stretch to protect a client's delivery deadlines
- **Collaboration & Knowledge Sharing:** Team members described collaborative approach as "pillars and compass," citing significant learning improvements from working together
- **UX Problem Solving:** Fixed a button-placement and color issue on the Calysta Pro CRM email campaign page that was creating layout confusion — colleague specifically credited the improved usability

- **Technical Agility:** Edited a webinar video under a 24-hour deadline; also delivered large-format event collateral and social media suites under tight recurring timelines
- **Culture & Events:** Led design and execution for SJ Innovation's 22nd Anniversary celebration — crest/trophy designs, zoom backgrounds, decorative merchandise (gift box, bag stickers, portrait cards), event props, and photo/video capture — recognized by HR leadership for creativity and dedication
- **Mentorship:** Formally assigned by my manager as mentor to a new design intern — providing hands-on KT and feedback on her work. Also independently closed onboarding gaps outside my role that HR/PM had not yet delivered, and built a comprehensive, all-encompassing onboarding project resource that would normally fall to management — approved by my manager.

RECOGNITION & CLIENT FEEDBACK

StoryGroove Project Dedication — www.storygroove.ai

- "In the StoryGroove project, your dedication to taking full ownership of the work was instrumental in delivering the end product to the client and ensuring her success. The effort you put in, including working late nights and weekends, was truly impressive and made a noticeable difference for the team. As a result, the client was very satisfied with the outcome, and we were able to strengthen our relationship and build trust and confidence with her."

EDUCATION

- **Diploma in Engineering in Computer Science** | Munshiganj Polytechnic Institute 2021 – 2025
