

Client Success Control Tower

Welcome to Client Success AI Control Tower — the AI-powered client intelligence platform built specifically for software agencies. Stop reacting to churn. Start preventing it with real-time health scores, automated briefings, and AI that tells you which clients need attention before it's too late.

PROBLEM DISPLAYED

Too Many Clients. Too Few Hours. Too Many Tools.

✗ CSMs spend 2+ hours daily hunting for context

(HubSpot + project tools + email + memory)

✗ No proactive churn warning system

(You learn about risk after the client decided)

✗ Client knowledge lives in people's heads

(When someone leaves, context disappears)

✗ Revenue forecasting is spreadsheet heroics

(Updated quarterly, outdated by day 2)

THE SOLUTION

Every Client. Every Signal. One AI-Powered Platform.

6 Core Capabilities

REAL-TIME HEALTH SCORES

0–100 scores updated continuously for every client

AI DAILY BRIEFINGS

Personalized morning emails: who needs attention & why

MEETING INTELLIGENCE

Auto-generated summaries, concerns, action items

KNOWLEDGE BASE

Searchable history of every client interaction

REVENUE FORECASTING

Live projections from MRR + pipeline + health trends

10 INTEGRATIONS

HubSpot, ActiveCollab, Drive, analytics — all synced

HEALTH SCORES — KNOW WHO'S AT RISK BEFORE THEY LEAVE

One Number. Complete Relationship Health. Updated Continuously.

Health Score Inputs

SIGNALS THAT FEED THE SCORE:

-  Meeting frequency & sentiment trends
-  Deal pipeline health & revenue trajectory
-  Project milestones & delivery status
-  Communication patterns & response times
-  Client satisfaction ratings (when collected)
-  Days until contract renewal
-  Engagement with deliverables

Client Tier Auto-Classification

Platinum: High MRR + high health → strategic partnership

Gold: Medium-high MRR + strong health → regular expansion focus

Silver: Standard accounts in good standing → scheduled touchpoints

Bronze: Lower engagement or recovery → activation support

AI DAILY BRIEFINGS — START EVERY DAY WITH A PLAN

Your Team Shouldn't Start Their Day Hunting for Information

Daily Briefing Contents

- | | |
|--|---|
|  PRIORITIZED CLIENT LIST
Top 3–5 accounts needing attention |  EXPANSION SIGNALS
Funding news, positive sentiment, usage growth |
|  SPECIFIC REASONS
Why each client is flagged (data-backed) |  PENDING ACTIONS
Overdue tasks and upcoming renewals |
|  RISK ALERTS
Health score drops, missed milestones, sentiment decline |  PORTFOLIO SNAPSHOT
Yesterday vs. today trend summary |

Time Saved

2+ hours of morning context gathering → 2 minutes reading briefing

MEETING INTELLIGENCE — NOTHING FALLS THROUGH THE CRACKS

From Meeting to Summary to Action Items, Automatically

AI Meeting Intelligence Process

- 1 Meeting marked "Complete"
(Agenda, takeaways, notes captured)
- 2 AI processes meeting content
(12-second analysis)
- 2 Structured outputs generated
 - ✓ Meeting summary (prose format)
 - ✓ Extracted concerns (severity-ranked)
 - ✓ Sentiment assessment (trend vs. history)
 - ✓ Draft action items (with assignees)
- 1 Results stored & searchable
 - ✓ Added to knowledge base
 - ✓ Feeds into health score
 - ✓ Appears in daily briefings
 - ✓ Assignees notified

Problem Solved

Meeting amnesia eliminated. Every commitment tracked automatically.

SEMANTIC SEARCH ACROSS EVERY CLIENT RECORD

When a CSM Leaves, Their Client Knowledge Doesn't

Knowledge Base Features

UNIFIED REPOSITORY

Meetings, docs, research, notes — all in one place

SEMANTIC SEARCH

Understands meaning, not just exact keywords
"Delivery was delayed" = "Project ran late"

AUTO-SYNC FROM GOOGLE DRIVE

Client folders sync automatically

AI-GENERATED CONTENT

AUTO-INDEXED

Meeting summaries, research reports, briefings

CLIENT-LEVEL ISOLATION

Each client's knowledge base is private

SUB-SECOND SEARCH

1,536-dimensional vector embeddings

Use Case

New CSM takes over account → searches "main concerns from Q1 QBR" → finds exact answer in 3 seconds

REVENUE FORECASTING — BOARD-READY, ALWAYS CURRENT

Stop Forecasting from Spreadsheets. Start Forecasting from Data.

Forecast Analytics Dashboard

HEALTH METRICS

- Forecast coverage: 94% of clients projected
- Stale forecasts: 3 (not updated in 30+ days)
- Auto-calculated: 78% | Manual override: 22%

ACCURACY TRENDS

- Forecast vs. actual comparison over time
- Variance analysis by CSM and tier

BY CLIENT TIER

- Platinum: \$245K projected | \$198K current MRR
- Gold: \$156K projected | \$142K current MRR
- Silver: \$87K projected | \$81K current MRR
- Bronze: \$34K projected | \$29K current MRR

AI RECOMMENDATIONS

- Low coverage warning (below 80%)
- Stale forecast alerts
- Manual override audit suggestions

Problem Solved

Quarterly forecast scrambles replaced with always-current projections

10 INTEGRATIONS — ONE PLATFORM, ZERO DUPLICATE ENTRY

HubSpot. ActiveCollab. Google Drive. All Connected. All Automatic.

Connected Integrations

HUBSPOT

Deals, contacts, pipeline stages (bidirectional)

ACTIVECOLLAB (via n8n)

Project tasks, time tracking, milestones

GOOGLE DRIVE

Auto-index documents into knowledge base

CONTROL TOWER

Clients, projects, users, meetings (bidirectional)

COLLABAI

Specialized AI assistants & conversation history

GOHIGHLEVEL

Marketing contacts & campaign engagement

SENDGRID

Briefings, meeting invites, feedback requests

PERPLEXITY AI

Live web research for client company intelligence

OPENAI

GPT-4o for all AI analysis & generation

N8N

Workflow automation bridge for custom connections

REAL RESULTS

From Reactive Firefighting to Proactive Client Success

What Agencies Achieve

TIME SAVED

- 2+ hours daily per CSM (information hunt eliminated)
- CSM onboarding: 6 weeks → 10 days

CHURN REDUCTION

- Average churn: 22% → 9% in 6 months
- \$180K+ annual revenue saved (18-client agency)

VISIBILITY GAINED

- Real-time health scores for every client
- AI briefings replace morning scramble
- Revenue forecast always current

KNOWLEDGE RETAINED

- Zero institutional knowledge loss from turnover
- Every meeting becomes searchable record
- 3-second answers to "what did we promise?"

NEXT STEPS

Two Paths Forward

What Agencies Achieve
