

Restaurant AI Control Tower

Welcome to Restaurant AI — the all-in-one operations platform built exclusively for restaurant chain owners. Every location. Every metric. Every insight. One intelligent dashboard.

THE PROBLEM

Running Multiple Locations **Shouldn't Mean Logging Into Five Different Systems**

DISCONNECTED DATA

Sales in Toast, reviews in Yelp, financials in Excel → No single source of truth

DELAYED INSIGHTS

Wait until week-end or month-end to see problems → React too late

MANUAL REPORTING

Compile reports by hand, location by location → 6+ hours weekly wasted

BLIND SPOTS

Food costs, labor overruns, menu problems hidden → Leaks continue undetected

LOST OPPORTUNITIES

Can't spot trends fast enough → Miss optimization windows

**TOTAL ANNUAL
IMPACT**

\$80,000+ in Inefficiency + Missed Revenue per 5-Location Brand

THE SOLUTION

One Platform. All Your Locations. Real-Time Intelligence.

SALES ANALYTICS

Live Toast POS data, all locations

REVIEW MANAGEMENT

Aggregated reviews with AI sentiment analysis

ORDER TRACKING

Real-time order management and fulfillment

MENU SYNC

Direct integration with Toast menu data

FINANCIAL DASHBOARD

Full P&L statements, expense tracking

AI INTELLIGENCE

Automated briefs, suggestions, analyzers

MULTI-LOCATION COMMAND CENTER

See All Your Locations. Drill Into Any One. Instantly.

Location Cards

Daily sales (live)

Orders today

Average review rating

Active AI suggestions

Click to drill down

Brand-Level Metrics

Total locations managed

Combined daily sales

Total orders today

Customer reviews
(aggregate)

Active users (team count)

AI suggestions (pending
actions)

TOAST POS INTEGRATION – AUTOMATIC DATA SYNC

Your Toast Data. Flowing In Automatically. Every Day.

What Syncs Automatically

- ✓ **Daily Sales Data**
Gross sales, revenue by channel (dine-in, takeout, delivery, catering)
- ✓ **Menu Items**
Items, categories, prices, images, visibility status
- ✓ **Location Details**
Address, hours, contact information
- ✓ **Customer Data**
Customer records from Toast POS
- ✓ **Operating Hours**
Open/close times per location

How It Works

- 1 **Connect Once**
Enter Toast API credentials per location (OAuth2 secure)
- 2 **Verify Connection**
Test connection before saving
- 3 **Automatic Sync**
Data flows in daily (or trigger manual sync anytime)
- 4 **Field Mapping**
Flexible mapping handles different Toast API versions
- 2 **Secure Storage**
Credentials stored in Supabase Vault (never in plaintext)

AI INTELLIGENCE – NOT JUST DATA, ACTUAL INSIGHTS

AI That Reads Your Data and Tells You What to Do

AI Features

AUTOMATED WEEKLY BRIEFS

Generated every Monday 8 AM, per location

Includes: sales trends, review summary, action items

PER-PAGE AI ANALYZERS

Reviews Analyzer → Sentiment, themes, item ratings, action priorities

Orders Analyzer → Volume trends, peak times, fulfillment insights

Finance Analyzer → Cost optimization, margin analysis, growth opportunities

PER-LOCATION AI SUGGESTIONS

Confidence-scored recommendations

Lifecycle tracking: new → accepted → done

Full history of past analyses stored

FULLY CONFIGURABLE

Choose AI model: Gemini 3 Flash, Gemini 2.5 Pro, GPT-5, GPT-5 Mini

Customize system instructions per analyzer

Write custom follow-up prompts for specific questions

FULL FINANCIAL PICTURE — P&L IN THE PLATFORM

Know Your Numbers. Every Location. Any Time Period.

Finance Dashboard Views

P&L Statement (Full)

Revenue, COGS, Operating Expenses, Net Income
Exportable to PDF

Revenue Breakdown

By channel: Dine-in, Takeout, Delivery, Catering
Progress bars showing % of total

Expense Analysis

Labor, Rent, Utilities, Marketing, Insurance,
Supplies, Maintenance
Cost control opportunity callouts

Trends & Insights

Month-over-month tracking
Year-over-year comparisons

Location Comparison

View all locations combined or drill into one
Side-by-side margin comparison

REAL RESULTS — WHAT OPERATORS SEE IN 30 DAYS

From Data Chaos to Operational Clarity

Results Dashboard

CARLOS RIVERA — 6-LOCATION MEXICAN RESTAURANT BRAND — 30 DAYS

Weekly Reporting Time: 8 hours → 45 minutes (89% reduction)

Insight Lag: 7 days → Real-time (same-day visibility)

AI Briefs Generated: 24 briefs (4 per location per week)

Problems Caught Early: 3 major issues spotted within 48 hours

Location Performance Clarity: 6/6 locations now comparable at a glance

Staff Coordination: Weekly briefs auto-sent to managers

PLATFORM COST: \$497/MONTH

Time Saved: 29 hours/month

Opportunity Value: 3 early problem detections = ~\$15K+ in prevented losses

OPERATOR TESTIMONIAL

"I went from reacting to last week's problems to preventing this week's problems. That's the difference."

— Carlos Rivera, Owner, 6-Location Mexican Restaurant Brand, Texas

SECURITY, INTEGRATION & SETUP

Enterprise Security. Seamless Integration. Live in 48 Hours.

SECURITY

Multi-tenant architecture
(complete data isolation)

Row-Level Security on all 32
database tables

Supabase Vault for encrypted
credential storage

Role-based access: super_admin,
admin, manager, staff

Full audit trail (tamper-proof logs)

No cross-organization data access
(enforced at DB layer)

INTEGRATION

Toast POS (sales, menu,
locations, customers, hours)

GoHighLevel (review
aggregation)

n8n (workflow automation)
SendGrid (transactional email)

Stripe (payment processing)

OAuth2 secure authentication

Per-location credential
management

SETUP

Live in <48 hours

Connect Toast per location
(secure OAuth)

Sync first data set

Invite team members with role
assignment

No IT project required

No data migration

\$497/month for 2–10 locations
