

Agency Control Tower

Welcome to Agency Control Tower — the AI-powered command center that unifies sales, delivery, meetings, and knowledge. Your entire business. One platform. One login.

THE PROBLEM

Your team runs on multiple **Disconnected Systems**

CRM — Deals in HubSpot

Email — Client communication in Gmail

Meetings — Zoom recordings and notes scattered

Documents — Google Drive folders hard to search

Tasks — ActiveCollab or spreadsheets

Calendar — Google Calendar, disconnected from context

Chat — Slack threads with no institutional memory

TOTAL IMPACT

**12+ Hours/Week Lost Per Team = Missed Deals +
Slow Delivery + Weak Handoffs**

THE SOLUTION

Sales. Delivery. Leadership. Clients. One Command Center.

Six Unified Modules:

SALES & REVENUE

Deal pipeline, lead follow-up, contact management

DELIVERY & PROJECTS

Tasks, milestones, PM compliance, ActiveCollab sync

LEADERSHIP & STRATEGY

EOS toolkit, OKRs, dashboards, cross-team visibility

MEETINGS & COLLABORATION

Zoom integration, transcripts, summaries, action items

KNOWLEDGE & INTELLIGENCE

AI search across docs, emails, meetings—semantic, not keyword

CLIENT PORTAL

Magic-link access to proposals, SOWs, invoices, updates

SALES — NEVER LOSE A LEAD AGAIN

Systematic Follow-Up. AI Mood Scoring. Every Lead Tracked.

Sales Features:

Visual Deal Pipeline

Track stages, owners, revenue across all opportunities

Automated Follow-Up Cadence

Scheduled next actions, overdue alerts, channel preferences

AI Mood & Momentum Scoring

Warm/Neutral/Cold classification flags re-engage opportunities

Complete Contact History

Every email, meeting, call, document—timeline view per client

Smart Dashboard Prioritization

High-value deals + warm leads + overdue follow-ups surfaced first

SALES — NEVER LOSE A LEAD AGAIN

Systematic Follow-Up. AI Mood Scoring. Every Lead Tracked.

Results:

- ✓ Follow-up discipline: Ad-hoc → Systematic cadence
- ✓ Lead visibility: Spreadsheets → Real-time pipeline
- ✓ Prioritization: Guesswork → AI-scored urgency + value
- ✓ Handoffs: Email chains → Full interaction context

MEETINGS THAT WORK AFTER THEY END

Zoom → Transcript → Summary → Action Items. Automatically.

Meeting Intelligence Flow:

1 Schedule via Zoom Integration

Meetings auto-sync to dashboard

2 Automatic Transcription

Full transcript generated during call

3 AI Summary Generated

Key decisions, topics, next steps extracted

4 Action Items Assigned

Tasks created with owners and due dates

5 Searchable Forever

Find exact moments in transcript by meaning

Impact:

- ✓ Manual note-taking: **Eliminated**
- ✓ Recap emails: **Auto-generated**
- ✓ Action items: **Extracted and tracked**
- ✓ Institutional memory: **Searchable across all meetings**

AI KNOWLEDGE BASE — SEARCH BY MEANING, NOT KEYWORDS

Find Answers Across Documents, Emails, and Meetings. Instantly.

Knowledge Base Features:

Semantic Search

Find answers by meaning across docs, emails, meetings

AI Chat Assistant

Ask business questions, get data-grounded answers

Unified Content Index

Gmail, Google Drive, Zoom transcripts, uploaded docs—all searchable

Institutional Memory

Emails and meetings become permanent company assets

Faster Onboarding

New team members find context without asking 10 people

AI KNOWLEDGE BASE — SEARCH BY MEANING, NOT KEYWORDS

Find Answers Across Documents, Emails, and Meetings. Instantly.

Example Queries:

🔍 "What did the client say about timeline in that March call?"

🔍 "Show me all proposals sent to Smith Corp"

🔍 "Which projects are behind schedule?"

🔍 "What are our Q2 OKRs?"

CLIENT PORTAL — PROFESSIONAL, PASSWORDLESS, BRANDED

Proposals, SOWs, Invoices, Updates. One Secure Link. No Login Required.

Client Portal Features:

Magic Link Access

Unique URL per deal—no password, no signup required

All Deal Documents

Proposals, SOWs, invoices, deliverables in one view

Weekly Progress Updates

Timeline of project milestones and status

Secure & Read-Only

Clients view only—you control what's shared

Mobile-Responsive

Works on any device, professional branded experience

CLIENT PORTAL – PROFESSIONAL, PASSWORDLESS, BRANDED

Proposals, SOWs, Invoices, Updates. One Secure Link. No Login Required.

Client Experience:

- 1 Receive email: "View your proposal: [magic link]"
- 2 Click link → Portal opens (no login)
- 3 See proposal, SOW, pricing, timeline
- 4 Bookmark link for future reference
- 5 Check weekly updates as project progresses

Your Experience:

- ✓ Upload doc once → Client sees it instantly
- ✓ Update proposal → Client portal updates in real-time
- ✓ Track client portal views (see when they opened it)
- ✓ Professional brand impression vs. email attachments

EOS + OKRs + EXECUTION IN ONE PLATFORM

Strategic Framework Meets Daily Execution

Strategic Execution Features:

EOS Toolkit

Vision/Traction Organizer, scorecard, issues list, rocks

OKRs (Company, Team, Individual)

Goals with health tracking and AI-suggested updates

Weekly Scorecard

Metrics tied to real project and task data

Issues Management

Log, prioritize, assign, track to resolution

Strategy → Execution Linkage

Rocks connect to OKRs, OKRs connect to projects

Leadership Visibility:

Are deals moving?

Pipeline dashboard

Are projects on track?

Delivery status + PM compliance

Are we hitting OKRs?

Health scores + progress bars

What's blocking us?

Issues list prioritized by impact
